The screenshot displays the Microsoft Designer application interface. At the top, the 'Designer' logo is on the left, followed by a 'PREVIEW' button and a dropdown menu showing 'Unsaved design'. On the right side of the top bar, there is a zoom level of '40%', undo and redo icons, a '+ New design' button, a 'Download' button, and user profile icons.

The main workspace shows a design preview of a social media post for 'Amira Ghous'. A purple notification bubble at the top left of the design says 'This design looks great. Nice work!' with a 'Download complete' status. A 'Tip' card is overlaid on the design, titled 'Ask Designer to design.' and contains a quote: 'An animated instagram post advertising our new summer clothing line'. Below the tip is a 'Subscribe for more tips from Designer' section with 'Subscribe' and 'No, thanks' buttons, and a 'Privacy Statement' link.

A file save dialog is open in the center, asking 'What do you want to do with Designer.png?'. It has 'Open' and 'Save as' buttons. Below the dialog, a list of files is visible:

On the right side of the workspace, there are social sharing options for Twitter, Facebook, and LinkedIn, a 'Copy invite' button, and a video player showing a preview of the 'Amira Ghous' design. At the bottom of the workspace, there is an 'Add page' button.
